# Qomo Qview QD8000

Qview QD8000, the latest generation of full size document cameras. Thanks to the HDMI output, the QD8000 can be connected to virtually any high definition display for full 1080p HD visuals. The VGA output supports XGA, SXGA, WXGA and 720p resolution for the ultimate compatibility with a variety of projectors and displays. This new model also offers all imaging features you would expect on a high end document camera, like Freeze, Split, Title and Mirror. All these functions, and the motorized camera head, can be controlled with your fingertips thanks to the touch sensitive controls. The built in Full Colour LCD monitor lets you see everything that is being projected without having to turn your back on the audience. Besides functioning at the highest level, this model also looks great. And when stored it forms a compact and slim package. In short, the QD8000 is all any modern user could ever wish for.

- **2.0 Megapixel CMOS sensor**
